ABOUT THE BOOKS

Curiosity cabinets were collections of wonderful objects brought together to inspire, delight, and inform. I loved the idea of assembling a knitter's curiosity cabinet—one full of fancy edgings and captivating stitch patterns and fabulous shapes instead of shells and fossils and gems. These books are the result.

Each of the patterns was inspired by a vintage natural history illustration (these illustrations were one of the ways people documented and shared the contents of their curiosity cabinets in a time before cameras), and each illustration led to two patterns: one for a pair of socks and one for an accessory. Each project offers something special that I hope will catch your eye and inspire you to add it to your own collection of knitted treasures.

The patterns focus on intricate textures, delicate lace, delightful cables, and beautiful details. They are written in multiple sizes and include clear, easy-to-use charts. The books also feature beautiful, detailed photographs and helpful tips and tricks to ensure your knitting goes smoothly.

ABOUT THE AUTHOR

I began designing, almost by accident, in 2009. It quickly became an obsession. Somewhere along the way, it also became my profession.

My first book, *Silk Road Socks: 14 Sock Patterns Based on Oriental Rugs*, debuted in 2011. Soon after, I attended Cat Bordhi's Visionary Authors retreat to learn to publish my own work. In 2012, I published the first volume of the *Knitter's Curiosity Cabinet* series. Volumes II and III followed in 2013 and 2014.

And of course, I'm already hard at work on my next project!
